INDUSTRY FOCUS

Stay Vigilant

Read Dr. Bernard Chan, the Acting Secretary for Commerce and Economic Development, replied to a LegCo member's questions about **cases of fraud through SMS** in the Legislative Council last week:

“MNOs and the Police have established a liaison protocol, based on the deception record and identified deception websites provided by the Police, to block or suspend services of the phone numbers suspected to be involved in deception cases and to prevent users from accessing the suspicious fraudulent websites. The measure has effectively forestalled users' access to fraudulent websites upon the receipt of phishing SMS messages.

In addition, to assist the public in ascertaining the authenticity of SMS sender addresses, OFCA, joined by the MNOs, the Police, the banking sector and its regulatory authority, have established another dedicated working group to formulate technical proposals and details in relation to the implementation of the registration scheme for SMS senders. It is our target to commence a pilot run of the scheme for the banking industry by end of this year.”

SUPPORTING ORGANISATION ACTIVITY

The Hong Kong ICT Awards aims at recognising and promoting outstanding information and communications technology (ICT) inventions and applications, thereby encouraging innovation and excellence among Hong Kong's ICT talent and enterprises in their constant pursuit of creative and better solutions to meet business and social needs.

Steered by the Office of the Government Chief Information Officer, and organised by Hong Kong ICT industry associations and professional bodies, the Awards aims at building a locally espoused and internationally acclaimed brand of ICT awards.
